THE BOLD LOOK
OF **KOHLER**®

and closets that carry the Kohler mark are well designed and well made, to the last minor detail. If you use colored fixtures, Kohler colors are pure, uniform, harmonious. If you prefer white, Kohler white is as immaculate as freshly laundered linen. Kohler faucets and handles and

plumbing and sanitation will, an able Kohler craftsman surprise you with the quality of his work. Kohler's reputation for quality is well known. Kohler's reputation for quality is well known. Kohler's reputation for quality is well known.

KOHLER OF KOHLER

Why KOHLER.?

People have been turning to Kohler for help with kitchen design for more than a century. The reputation we've earned for innovative design and uncompromising quality is certainly a large part of the reason why. But perhaps even more important is the holistic approach we take to creating kitchen sinks and taps. We study how people work in the kitchen, research material and colour trends, and develop technologies to enhance efficiency. Our goal isn't just to manufacture beautiful sinks and taps – it's to bring you products that streamline your workflow, complement your appliance and surface choices, and make your kitchen a comfortable, easy place to be.

Kitchen Solutions

From functionality and material to style and installation, our kitchen sinks and taps offer an incredible range of design options. Whether you're remodelling an existing space or building, we can help you achieve the look and feel you want. And, because all the variations can be a bit overwhelming, we walk you through what's what, so you can move quickly from understanding the basics to imagining new possibilities.

Enameled Cast Iron

Nothing makes an enduring statement to innovative design, lasting beauty and timeless craftsmanship in your home like KOHLER® Enameled Cast Iron. A thoroughly modern choice, each piece is made using at least 80% recycled material. And while other trends come and go, few materials can match the strength, style and soul of cast iron.

Stainless Steel

With its smooth lines and perfectly finished appearance, stainless steel is the material of choice for today's professional chef. Hot pans won't hurt them, and they're less likely than harder materials such as stone or fireclay to damage delicate dishware that may slip from your grip.

Ceramic Sinks

If you like to experiment with design try looking to past eras for inspiration in your schemes. An eclectic mix of furniture combined with quality products and design classics will give a lasting style that will always impress.

KOHLER® Taps. The Infinite Possibilities of Water

The myriad shapes and forms of water provide endless possibilities for inspiration, creativity and expression. Our designers continuously explore new shapes, forms and lines – constantly seeking inspiration from the world around them. Our engineers work tirelessly in the pursuit of greater efficiency and leading-edge technology. The result of our exploration opens up worlds of possibilities for self-expression in the kitchen.

"Life without labour is guilt. Labour without art is brutality."

John Ruskin

What John Michael Kohler saw in 1883 when he looked at a cast-iron horse trough was the bathtub that launched a global plumbing company. That pioneering spirit of ingenuity – the kind that sees a bathing revolution in a horse trough – has defined Kohler Co. from its earliest days. A visionary, John Michael Kohler understood the importance of innovative design and an uncompromising commitment to craft and quality. After four generations, we remain a family-owned company, with over 26,000 products and 13,000 patents to our name. Still leading the industry in innovation and design. Bolder than ever.

We believe there are a few essential ingredients that go into creating exceptional kitchens: purposeful functionality, smart design and beautiful style. And we’re passionate about bringing you kitchen sinks and taps that combine all three. With KOHLER®, you can design a kitchen that not only works with you — your cooking habits, your lifestyle, your home — but a kitchen that inspires you. So take a look inside. We’ll help you navigate our kitchen sink and taps offering quickly and easily, so you can find the combination that makes the most sense for you.

ENAMELED CAST IRON

Skilled artisans still craft KOHLER® Enameled Cast Iron sinks, in Kohler, Wisconsin working with mostly recycled material and, in many instances, hand-applied enamel. The unique casting process results in subtle variations of texture that you can feel, making each sink just a bit different from the next – so yours is truly one of a kind. When we create something with this level of integrity and pour so much emotion into it, we know what it means to make something meaningful, something that lasts.

Strength. Style. Soul.

No other material offers the character and craftsmanship of KOHLER® Enameled Cast Iron. Each piece embodies our commitment to crafting the finest sinks for over 100 years. Built to last for generations, Kohler Enameled Cast Iron makes an enduring statement of beauty in your home with strength, style and soul.

The 6 gorgeous hues of KOHLER® Enameled Cast Iron let you bring your personality into your kitchen decor. Its rich finish and long-lasting presence make a bold statement in any room-standing beautifully on its own or highlighting other materials.

KOHLER® Enameled Cast Iron sinks can withstand whatever you and your family dish out, from heavy pasta pots to searing hot pans. Our warranty guarantees the rich enamel finish will not chip, crack or burn – so you can count on Kohler to endure in your home with strength, style and soul – for life.

Indio® Under-Mount Sink (6411-2-0) Page 9

INDIO®

Practicality can be beautiful. The Indio two bowl kitchen sink is contemporary with an understated sleek aesthetic, innovatively created from 93% recycled materials. Using our 'Smart Divide' design, it offers more room to fill and soak pans. Not only is it easy to use and clean, the cast iron structure is super tough. This stylish sink also includes racks, colander and American Walnut chopping board.

IRON/TONES®

The Iron/Tones sink offers a simple design that is equally at home in modern or traditional kitchens. The large/medium bowls allow you to keep clean and dirty dishes separate while offering plenty of room for your biggest pots and pans. A low barrier divides the two compartments, making it easy to wash and rinse large items while still keeping the two basins separate.

STAGES™

Designed in collaboration with the chefs at KOHLER'S Five Diamond resort hotel, Stages meets the needs of the serious home cook. The Stages sink comes with a full array of integrated accessories to simplify the cooking and cleanup processes. The design offers a wide basin to accommodate large pots and pans, as well as a stepped side platform for prepping food or drying dishes. Handcrafted from premium quality, 16-gauge stainless steel, Stages features an engineered sound-absorption system that significantly reduces noise.

STRIVE™

The Strive sinks are designed in multiple configurations and with intuitive features like easy-to-clean curved corners and deep basins. The Strive family of sinks is constructed of 16 gauge stainless steel, meaning a thicker and a more durable gauge. We have equipped the sinks with a variety of task-oriented accessories. All of the Strive sinks come with fitted bottom basin racks to help protect the sink from scratches and glassware from bumps. The larger sinks also include convenient accessories such as utility shelves for brushes and sponges, and a divider dishcloth bar. A hardwood cutting board is also available.

Geog® 1 1/2 Bowl (3748T-1F-NA) Page 39
Tap shown not available

GEOG®

The Geog kitchen sinks are ideal for a busy and modern kitchen environment. Geog offers a different take from the 1.5 bowl version and represents fantastic design. The large single bowl offers a two level base which allows for water saving for just a little washing up, whilst also being able to hold the largest of pots and pans for major tasks. The Geog range of kitchen sinks are suitable for inset, under-mount or flush-mount installation, and come complete with a basket strainer waste, a wooden chopping board and a stainless steel drainer board.

Icerock™ Entertainment Under-Mount Sink (3179-NA) Page 41
Tap shown not available

ICEROCK™ ENTERTAINMENT

The Icerock™ Entertainment sinks take functionality to a higher level in the modern day kitchen. With generous dimensions, this could be the feature design piece for your kitchen. It could also be installed as an additional second sink for maximum functionality. An engineered sound-absorption system significantly reduces disposal and dishwashing noise for a quieter kitchen environment. For further functionality, the recommended wire racks provide a flat work surface which is ideal for drainage.

SENSATE™

The Sensate touchless kitchen tap is an ideal blend of beauty and brains which enables you to speed through tasks without creating a mess. The touchless feature frees your hands which therefore helps prevents mess and germs being spread throughout the kitchen when prepping, cooking and cleaning up. Response™ technology makes Sensate respond to your every move. Simply wave your hand or an object such as a pan or kitchen utensil to turn Sensate on or off. Its state-of-the-art sensor is in tune with your every move, precision-designed to provide reliable operation every time.

KARBON[®]

The latest in brassware technology, Karbon offers unlimited hands-free flow and flexibility – impressive from every angle. A sleek hybrid of functionality and contemporary design, the Karbon kitchen sink tap delivers water exactly where you want it. The tube design features three articulating pivot points for total range of motion: extend the tap fully to fill large pots, lower it into the sink for food preparation and cleanup, or fold it out of the way when not in use. An in-the-deck joystick valve gives you precise control of water temperature and flow.

Purist™ Pull-Down Tap (7505D-CP) Page 57

PULL-DOWN TAPS

KOHLER's pull-down taps offer an innovative fit for a variety of kitchens and tasks by combining an elegant, universal design with exceptional ergonomics and functionality. The high-arch spout rotates 360 degrees and reaches over the tallest pots, while the smoothly manoeuvring sprayhead pulls down into the sink for up-close tasks, or out of the sink to fill pots. Sculpted buttons on the sprayhead ensure simple operation even with wet, soapy hands, while Kohler's Sweep™ technology spray creates a wide and forceful blade of water for superior cleaning. Kohler's new docking system, DockNetik®, secures the pull-down sprayhead to the spout using magnetic force. Our pull-down taps also have ProMotion™ technology, which encompasses a light, quiet nylon hose and ball joint which enhances the sprayheads functionality by making it much more comfortable to use.

HiRise Deck-Mount Pot Filler (7323W-4-S) Page 65

POT FILLERS

Inspired by professional kitchens and cooktops, this HiRise pot filler faucet provides commercial-grade utility to home chefs. Fill your pots right where you need them, and avoid carrying heavy, filled pots across the kitchen. The deck-mount style and slim profile of this faucet leaves plenty of counter space for prep work, and the extended reach covers a wide area on your counter or stovetop. A higher-than-average flow rate quickly fills your pot with water. Offering either a deck or wall mount installation, these taps leave plenty of counter space for prep work, and the extended reach covers a wide area on your counter or cooker top.

Technical Information ⁷²

Technical Diagrams ⁸⁰

Consider Your Options

As you design your kitchen and choose the style of your sink, there are several functionality and installation options you’ll want to consider, especially as they may impact your tap selection. We’ve outlined the basic information below. If you find you have additional questions, visit KOHLER.co.uk or contact your showroom representative.

MADE TO ORDER

MTO - Made-to-Order

Some KOHLER® Kitchen products may be Made-to-Order. Please contact your local Retailer for details.

Bowl Count

We offer single, 1½ and double-bowl sinks to match the way you work – whether you use your dishwasher for dishes and just wash large pots in the sink or you hand wash your dishes and want to separate clean and dirty items. You’ll also find a variety of bowl sizes in our offering and may want to consider a sink with a wet work surface for food preparation i.e Stages™.

Smart Divide®

If you often wash large pots and pans yet want the functionality of a double-bowl sink, consider a Smart Divide® sink. The divider is uniquely developed to make it easier to clean large, bulky items while keeping clean and dirty items separate.

Bowl Configuration

Kohler sinks are available in a range of configurations, including double-equal and 1½ bowl sinks. In addition our Icerock™, Modultop™ and Iron/Tones® range of sinks can be grouped to create customised configurations.

Apron-Front

Apron-front sinks are often referred to as farmhouse sinks because they can evoke period-style kitchens. These sinks have a stylish panel in front and are available as under-mount models.

Inset

The easiest model to install and frequently used with laminate work surfaces, the inset sink’s rim extends above the work top surface and supports the sink’s weight. Clips and bolts under the counter hold the sink securely in place. Many of our sinks accommodate both under-mount and inset-mount applications.

Under-Mount

These sinks mount beneath the work top, and are most often used with solid work top materials like granite, composites and timber. Many of our sinks accommodate both under-mount and inset-mount applications.

Accessories

Many of our sinks come with custom accessories, including bottom bowl racks and cutting boards, to extend the longevity of the sink and enhance functionality. Basic accessories are available for all of our kitchen sinks. In addition, several sinks, like Stages™ and Indio®, come with accessories unique to their functionality.

Under-Mount Sink Kit

This kit helps ensure quick, sturdy installation of Kohler under-mount sinks, eliminating the need to build a wood frame or drill into the work top, saving you time, material and money.

Bar and Preparation Sinks

Bar and Preparation sinks can be installed as a complement to the primary sink in the kitchen to help in food prep or cleanup or as a standalone in a family room, entertainment area or anywhere else you entertain guests.

Consider Your Options

As you design your kitchen, there are several functionality and style options you'll want to consider to ensure you choose the right kitchen tap for the way you work. Below you will find a brief overview of the various different types you can choose from. If you have any additional questions, visit KOHLER.co.uk or contact your showroom representative.

Single-Lever

The volume and temperature is controlled by one lever, located either on the tap or next to it. If you prefer the simplicity of one control, check out our single-lever models, available in both traditional and contemporary styles.

Pull-Down Spray

If you prefer a clean sink deck, a pull-down tap may be the right solution. Pull-down taps typically feature a generous spout height as well as multiple spray options – aerated, spray and pause function – for ease of use.

Pull-Out Spray

Offering the same functionality as pull-down taps, pullout taps generally have a larger section of the tap that pulls away. If you like a larger grip area, a pullout tap may be more comfortable for you to use.

Two-Handle

Many people prefer the familiarity and separate temperature controls of two-handle taps. We offer a wide range of two-handle taps with a variety of handle types, including lever, cross or wristblade handles that are easy to operate.

Bridge

A fresh interpretation of a classic tap design, bridge taps can be mounted on a sink deck or wall. Bridge taps feature a two-handled design with a generous swing spout and are available in traditional or contemporary styles.

Pot Filler / Wall-Mount

Wonderfully convenient for the home cook, wall, or deck-mount pot fillers are installed next to or above a stove top, giving you quick access to water without having to transfer pots back and forth to the sink.

Join us for an unforgettable stay at the Old Course Hotel in St Andrews, Scotland, or The American Club® in Kohler, Wisconsin, where you'll enjoy classically elegant settings, sumptuous cuisine, exclusive spa and golf experiences, luxurious amenities and quietly confident service. Plan your experience at a KOHLERexperience.com.

Thank you.

If you'd like to learn more about KOHLER® and our complete product offering, we invite you to take a look at our website or stop by a displaying Kohler Showroom.

Showrooms

To experience Kohler bathroom products first hand, visit KOHLER.co.uk to find a displaying showroom near you.

Peace-of-mind guarantee

At Kohler, we are confident in the quality and reliability of our products and guarantee them against faulty materials or workmanship, provided they have been installed, cared for and used in accordance with our instructions.

25 years	Ceramic and enameled cast iron products
10 years	Acrylic baths, metal Vessels and Shower Trays
5 years	Shower valves, taps, bath panels, cistern fittings and seats
2 years	Bathroom furniture and accessories
1 year	Whirlpool and spa systems

Kohler enclosures & bath screens hold a lifetime guarantee – certain exclusions & conditions apply, see website for full details. 12 months only for Contra Enclosure range

Our lifetime guarantee is available to the original private domestic customer only who buys a Kohler shower enclosure and who completes and returns to Kohler the guarantee registration form, along with a copy of proof of purchase from an approved Kohler retailer, within 30 days of purchase.

Where the purchase of a Kohler shower enclosure has not been registered, the lifetime guarantee does not apply but you will be entitled to a 12 month guarantee from the date of purchase. Proof of purchase is necessary.

For further information please visit KOHLER.co.uk or call us for a copy of the terms and conditions and to register your guarantee.

Contacting us

For Kohler Customer Service or technical enquiries, please call us on +44 (0) 844 571 0048.

E-mail info@kohler.co.uk or visit our website KOHLER.co.uk

For technical details please visit www.kohlerpro.co.uk for further information.

Bathrooms

Showcasing a full range of sanitaryware, coordinating furniture, mirrors, taps, artist editions, enclosures and showering. We are confident you will find something to inspire you.

Enclosures

We offer a wide range of shower enclosure options and, with everything from shower doors to shower trays, our comprehensive selection lets you easily upgrade your existing bathroom or custom design a new one.
